

Managing Your Group on the Chamber Website

woodlandhillsgcc.net

Full guide:

woodlandhillsgcc.net/member/leader-guide.html

Five things every group leader, Connection Circle leader, and Ambassador can do on the website today. No forms to send the office. Everything below is on your own **Manage group** page.

1 Sign in and find your group

woodlandhillsgcc.net > Member sign-in

- Use the email address the Chamber has on file for you.
- No password? Choose **Email me a sign-in link**. A one-click link arrives in your inbox (check spam the first time).
- Your dashboard opens with a green **Group management** card at the top. Click **Manage group**.

2 Put your meetings on the calendar

Manage group > Add an event / Set up recurring meetings

- **Set up recurring meetings**: pick the first date, uncheck any holiday, and create the next 3 to 12 months in one go.
- The office gives a quick approval, then each meeting appears on the Chamber calendar showing **Hosted by** your group.
- **Edit** fixes a date or typo. **RSVPs** shows who is coming, with email and phone.

3 Approve members and build your roster

Manage group > Approve / Decline box, Add a member

- When someone asks to join from your group's public page, you get an email and an **Approve / Decline** box at the top of your page.
- Add members yourself: search the Chamber directory, or type a name and email for someone who is not a member yet.
- Anyone you add with an email on file gets a welcome email automatically.

4 Email the group, post notes and photos

Manage group > Email the group, Meeting notes, Photo albums

- **Email the group** sends your message to every member individually. Replies come to you.
- Tick **Add the next meeting's details** and the date, venue, and RSVP link are added for you.
- **Meeting notes** you save appear on your group's public page right away. Create a **photo album** per meeting and members can add their own shots.

5 Ambassadors: sign up for an event shift in one click

Member dashboard > Volunteer at an event

- Every event that needs Ambassadors lists its open roles and how many people each still needs. Click a role to take it, and you can cancel from the same card.
- Your name appears on the public **Ambassadors** page at woodlandhillsgcc.net/ambassadors.html. For the photo, upload a square image, at least 400 × 400 px, under **Edit my profile**.
- The office sees who covered what on every event, so there is no separate sign-up sheet to email around.

Members' own calendars

Every meeting page has **Add to Calendar** buttons for Google, Outlook, and Apple. Members tap once and the meeting is on their phone.

Stuck?

Use the **Support** button in the bottom-left corner of any page (screenshots help), or replay the walkthrough with **Take a quick tour** on your Manage group page.
